Covid19 SELF DECLARATION FORM

The health and wellbeing of our families and babysitters is of utmost importance to us.

Due to the ongoing and rapidly changing situation with Coronavirus (Covi-19), minderfinders recommends that both families and babysitters complete this form, and that completed forms are exchanged between families and babysitters 48 hours in advance of every booking.

We see hand washing as the single most important defence against the spread of infectious diseases.

Good hand hygiene should be modelled and promoted by babysitters to children, in an effort to prevent the transmission of infection.

Public health guidelines should also be followed regarding the use of face coverings.

This data is exchanged in a legitimate effort, as a preventative measure to mitigate the risk of the spreading of Covid-19, and is to be used for the sole purpose of contact tracing.

Family Name: _____
Membership No: _____
Date of Booking: _____
Babysitters Name: _____
